## ABOUT US

Established in the year 2001, Alstrong is a brand synonymous with Aluminium Composite Panels. Alstrong is the first ACP brand of India which has now expanded its reach to Middle Eastern and North African markets by setting up its state of the art plant in the most progressive city of Middle East and the heart of MENA region, Dubai. Alstrong has started its Dubai operations with 2 manufacturing lines capable of manufacturing very high quality and fire retardant Aluminium Composite Panel and Metal composite panels. The total installed capacity of Dubai Plant is 3 million square meter per annum.

Starting its journey from the state of Jammu & Kashmir in India, Alstrong has continuously maintained its leadership position in Indian market. It has made its mark as forerunner in the industry and has an impeccable record of quality product and unseconded customer satisfaction. The brand is now all set to achieve similar success in MENA region.

Alstrong's strong emphasis on R&D and intrinsic quality control at every step ensure innovative products that are engineered to uphold its motto of "Always looks new". Underscoring this perpetually strong saga of product quality, our laboratories are equipped with most modern and analytical machines that keep an eagle eye on quality standards. Seamless production and efficiency in deliveries is ensured through our integrated SAP system.

## PANEL DETAILS

### Panel Options

Width	1250 mm	standard
	1500 mm	upon request
	1000 mm	
	1575 mm	

Lenght upto 6000 mm

Panel Thickness upto 6 mm

Skin Thickness 0.50 mm

Custom colors & grades can be produced on demand.

### Product Tolerance

Width	± 2.00 mm
Thickness	± 0.20 mm
Length	± 2.00 mm
Skin	± 0.02 mm

NOTE:  
1) Above samples are for reference only, actual colors may vary slightly from the displayed colors.  
2) To avoid possible reflection differences, it is imperative to install the panels in the same direction as marked on the protective film.  
3) Please order the total requirements for one particular building in a single order, for metallic and solid colors, an optical change shade may occur due to the metallic particles of these lacquers.  
4) The delivery period for non standard colors can extend upto 6 weeks from the date of order and there shall be a minimum order requirement for non-standard colors.  
5) Colors given in the shade card are to provide our clients with some of the most popular options. However, we can as well develop other colors as per the customers' requirements. Please contact our office/sales representative for your specific needs.
